

## Tupperware Opens Up To A New Way To Share Information Across The Globe

### Overview

**Country or Region:** Global

**Industry:** Manufacturing

### Customer Profile

For over 60 years Tupperware Brands has made a difference in the lives of women around the world by offering an independent business opportunity.

### Business Situation

Tupperware already had an existing SharePoint site used internally however, it was not fully developed and there remained several unfinished projects and systems not yet created that they needed to roll out in a timely manner.

### Solution

K.I.T. Corp, a Microsoft Certified Business Partner, quickly assessed the situation and began to complete several projects under development. K.I.T. Corp, rolled out various modular request systems, HR request sites, and other departmental projects that were backlogged.

### Benefits

- .. Increased access to data
- .. Improved productivity
- .. Seamless Integration
- .. Conversion of paper forms
- .. Reduction of paperwork
- .. Introduction to Workflows
- .. Improved Departmental Communication

“Microsoft SharePoint was a new technology for us and we needed a company to unlock its potential as a platform for our web-based services and internal departmental use.”

*Jody Koger, Director of Information Technologies, Tupperware Brands*

Located in Orlando, Florida, Tupperware Brands Corporation is the leading global marketer of innovative, premium products across multiple brands utilizing a relationship-based selling method through an independent sales force of 2.9 million.... and decided that they must upgrade to new technology.

Tupperware had several projects under development that K.I.T. Corp quickly revised, completed and released. Tupperware's Worldwide IT site was completely redesigned. A modular request system site was designed so that central, technical, facilities, and creative service request forms were available through the site.

K.I.T. Corp completed a complex customized workflow for the above processes and an HR request process. K.I.T. Corp also created a merchandising and marketing request system program developed in Microsoft Access and presented on their SharePoint site.
